SOLSTICE FIRES

EHRWALD **Glowing mountains | Saturday, 20.06.2026 from 10:00 pm**
Alternative date in case of bad weather: 27.06.2026

LERMOOS In the Tyrolean Zugspitz Arena – in the valley basin around Ehrwald, Lermoos and Biberwier – the mountains are glowing!

BIBERWIER For the solstice fires, around 8,000 individual fire pits are used to form symbolic figures from mythology and religion, illuminating the night sky. By decision of the National UNESCO Commission on 10 March 2010, the Tyrolean mountain fire was recognised as a national intangible cultural heritage.

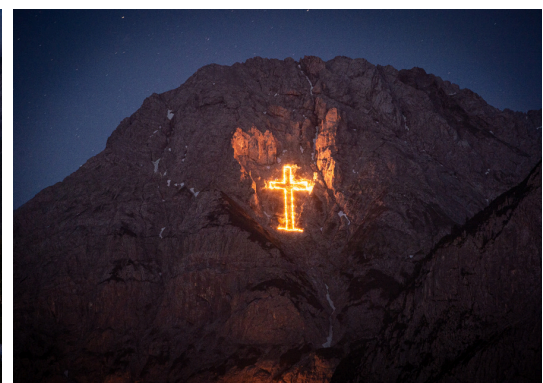

For a good view, visitors are best advised to use the walking trails in the moos – from there you can marvel at the entire valley basin. Please take care not to leave any rubbish behind and use the marked paths to protect the flora and landscape.

Please also respect the agricultural land during the solstice fires and stay exclusively on the signposted paths – the farmers and animals will thank you for it! :)

If you are arriving by car, please park exclusively in the public car parks in the region. In addition, camping is only permitted on the designated campsites.

Free shuttle bus from Lähn, Berwang-Rinnen, Bichlbach and Heiterwang with a valid guest card. (Reservation at the Tourist office in Berwang is essential! | Bus timetable as per information sheet)

BERWANG **Sacret Heart Fire | expected to take place on Saturday, 13.06.2026 from approx. 10:00 pm**
The Sacred Heart Fires are lit by the Berwang-Namlos Mountain Rescue Service (only in good weather conditions).
